Greetings!

We hope you are enjoying the summer so far. As you may have seen, I recently wrote an OpEd for CNBC's "Power Lunch". The topic, "Ban the Box", has become more prevalent as laws across the US are increasingly adopted and restrict an employer's ability to check out candidates before they are hired. As with all hot button issues, there are many sides to the argument. Our stance, as always, is that information empowers decisions and protects employers from unforeseen disasters. The key is not in restricting the information, but in disclosing it. Please feel free to read the piece [here](#).

We have some exciting developments to share with you this quarter, including our Investigator Spotlight on Wes Rigler! Enjoy the rest of your summer.

Sincerely,

Ken S. Springer - [Founder and President](#)

New Product - The Prospect Report

For over two decades CRI has come up with investigative solutions to meet the evolving needs of our clients. A consistent trend has been the need for quick and cost effective intelligence on people you intend to deal with - prospects. Before you hop on a plane to meet the management team or have dinner with a prospective partner, client or investor, there is information you need to know.

The Prospect is less comprehensive than a "deep dive" background investigation, but it quickly delivers critical information such as bad publicity, criminal or regulatory problems, and overstated credentials. If you don't end up moving forward with the opportunity, you have already controlled your costs. And if you keep going, we simply expand the scope and deliver a full investigative report.

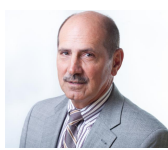

For more information on the Prospect, please contact Joelle Scott (jscott@corporateresolutions.com or 212-691-3800).

Investigator Spotlight

Wes Rigler, Director of Investigations

To learn more about us and how we help our clients please

Wes Rigler joined Corporate Resolutions in 2012 after 28 years in the FBI where he spearheaded several major investigations into organized crime and labor racketeering. He was recently honored by the Federal Law Enforcement Foundation for his outstanding work in the arrests and convictions of numerous corrupt union officials and contractors throughout New York and New Jersey during his tenure. Wes is also a former police officer with the Ridgewood Police Department in New Jersey and has served in the US Army.

Wes and Ken Springer (Founder and President) knew each other from their time in the FBI. Upon retiring from the FBI, Wes decided to join Ken and his team at CRI. As Director of Investigations Wes is responsible for coordinating corporate investigations and oversees our surveillance efforts, conducts subject and reference interviews, and maintains CRI's global intelligence and security network. Wes has said that after 30 years of working in law enforcement, "it's still rewarding for me to be able to help clients by using the skills that I learned as an investigator".

Wes is a proud grandfather of three and enjoys spending time with his family at their vacation home on Cape Cod. He loves playing golf with his wife Annemarie and flaunts his mixology skills to make her a special victory drink whenever she beats him.

Corporate Resolutions Community Outreach Project

On June 20th, CRI's NY team took to Central Park as part of our Community Outreach Program. The team volunteered through the Central Park Conservancy, participating in the "Pitch In - Pick Up" program. With garbage grabbers in hand, the team spread throughout Central Park and filled up bag after bag with litter!
